## Are you:

Struggling with on-site communication?

Need a better way to connect with contractors working remotely, across multiple locations?

**We have the ultimate mobile phone deal for your construction business. Unlimited calls, text and data combined with everything Mobile+ has to offer for just £25.**

## What's Mobile+ we hear you say?

- + A solution that provides your team with high-quality calls that aren't reliant on internet connection, by using the mobile voice network.  
**No more dropped calls, no more missed updates.**
- + An app with an array of features that **allows construction workers to transfer and record calls from their mobile** simply and intuitively when working across multiple job sites.
- + Mobile+ **gives your HQ visibility across all your staff** through a simple admin portal that can monitor and analyse call activities for your busy workforce.

## Sound good?

**Make sure your construction projects stay on solid ground with Mobile+, powered by PiPcall.**

### **One system. On-site business phone calls made easy.**

By harnessing the mobile voice network, Mobile+ ensures contractors can make high-quality calls, complemented by cutting-edge features like call transfer and call recording. With construction professionals on the move, no critical information is siloed, empowering agile workers to collaborate on and off-site.

### **Flexible. Easy-to-manage, short-term contracts.**

For just £25 per month, get the Mobile+ app including a separate phone number, advanced calling features like call record and transfer and a user-friendly admin dashboard. Plus, our SIM with unlimited mobile calls, unlimited texts and unlimited data.

### **BYOD-friendly plans.**

There's no need to juggle two phones on top of your tools. Mobile+ equips employees with powerful calling and collaboration tools directly on their personal mobile devices for BYOD. With a dedicated mobile number, separate data, calling and SMS plan, workers benefit from having all business calls, contacts, and messages separate from their private information.

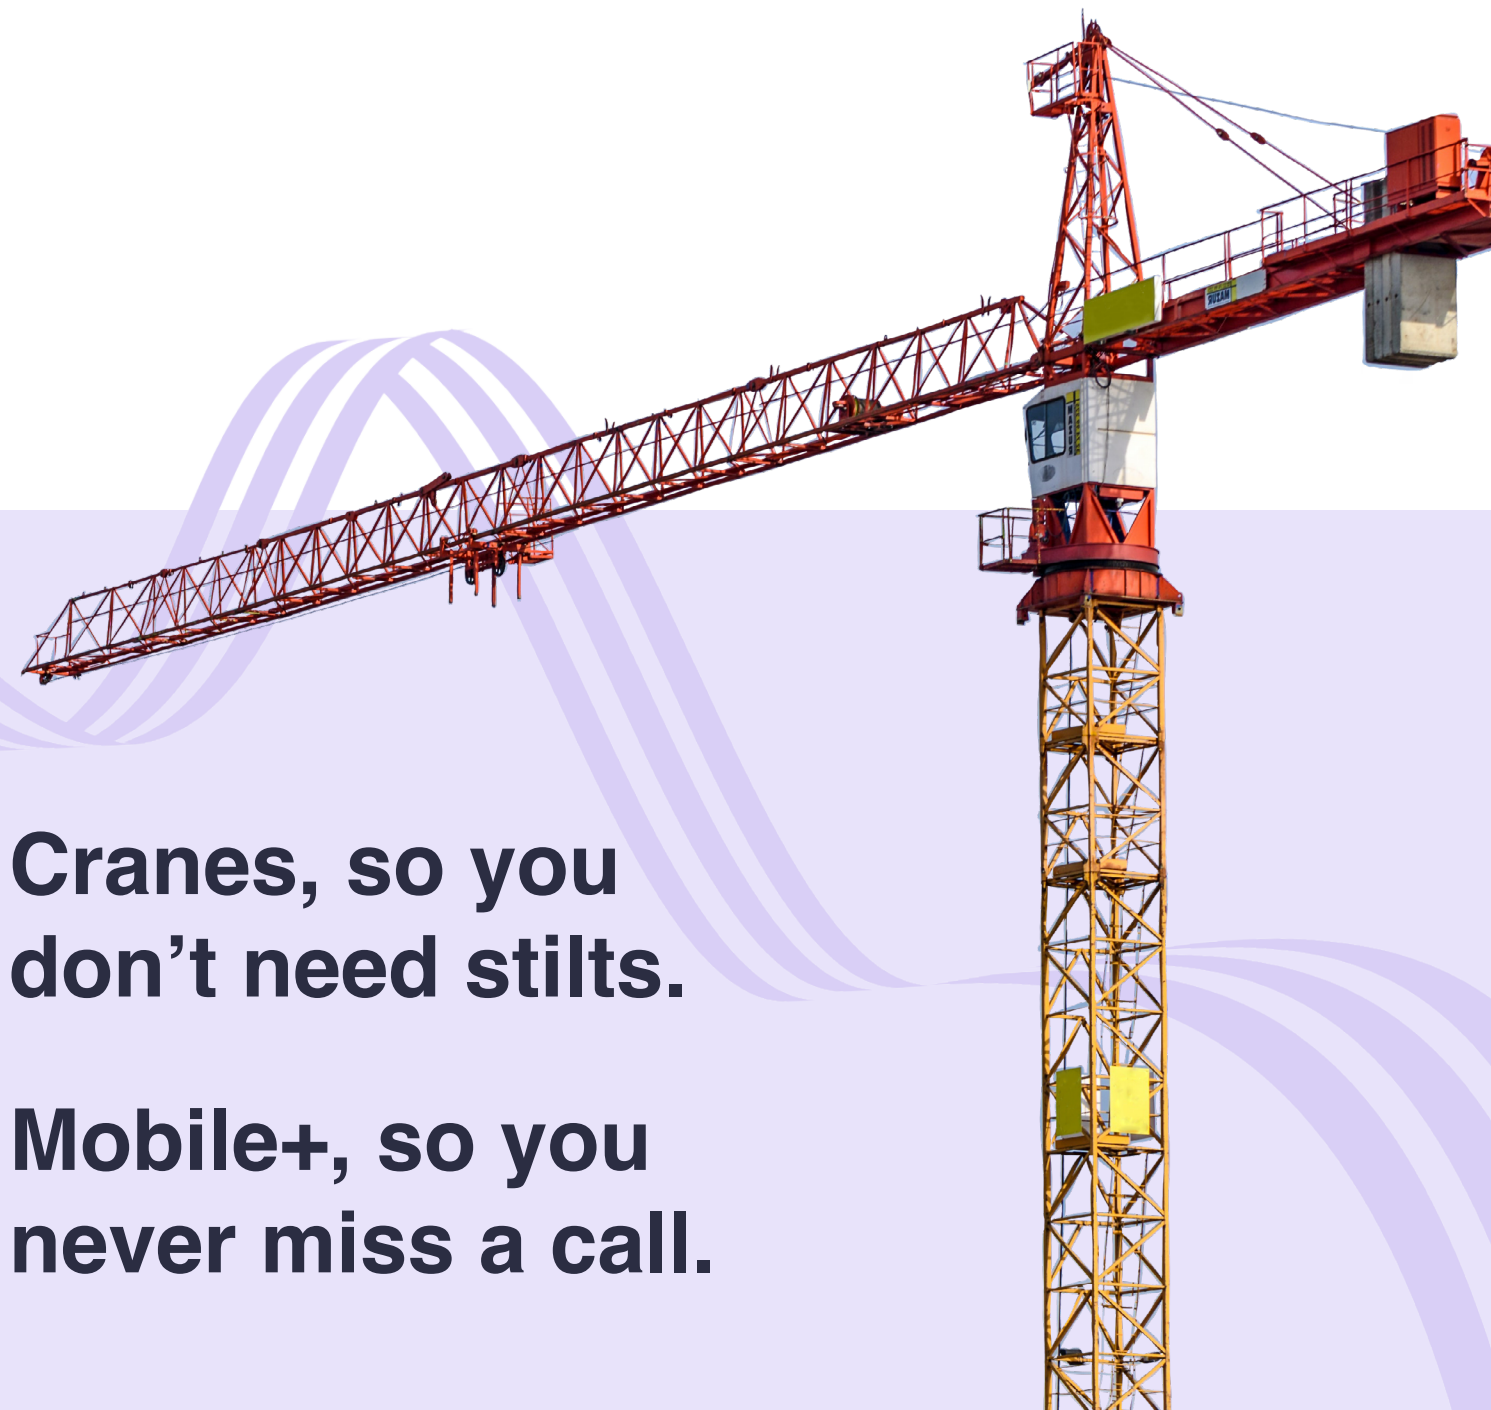

### **Centralised communications. Hassle-free.**

A singular solution designed to connect, secure, manage and supercharge your mobile ecosystem easily. Our intuitive admin portal brings these functionalities together in a centralised hub for construction businesses to monitor and analyse call activities for employees. Enhancing coordination, security and project efficiency, all in one place.

### **Unsure whether to take the plunge? Mobile+ is the ideal business mobile solution for on-the-go workforces including:**

-  Architectural activities, urban planning and landscaping
-  Civil engineering projects
-  Construction across commercial and domestic buildings, to railways, bridges, tunnels and water projects
-  Site demolition and preparation
-  Quantity surveyors

**Cranes, so you  
don't need stilts.**

**Mobile+, so you  
never miss a call.**
